### ***Ipso Facto* (Innovative Pedagogical Scenario On Food And Consumption Trends and Opportunities)"**

#### **Short Term mobility**

**FINLAND**, 10-15 DECEMBER 2018

#### **Narrative Report**

**Alunna: Noemi Terruso, Liceo delle Scienze Umane, classe 4C**

Thanks to our institute "Enrico Fermi High School" we were given the opportunity to participate in the Erasmus KA2 project and to be able to visit beautiful Finland, to be hosted by wonderful families and to bring memories that we will never forget.

We left on the morning of December 10th from Lamezia Terme airport at 06:25 to arrive in Rome. From Rome we took another plane at 10:25 ... destination Helsinki!

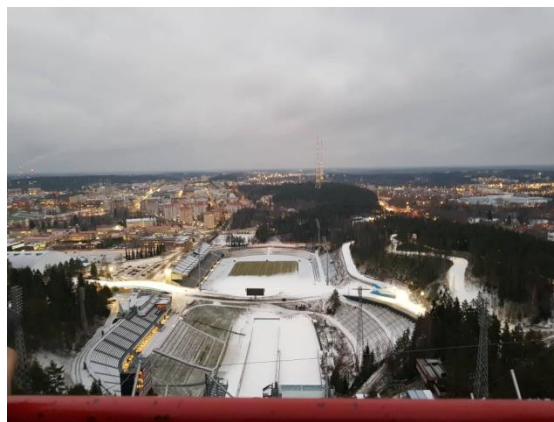

We were excited, happy, curious and ready to live an unforgettable experience. When we arrived at Helsinki airport we took a train to Mantsala, our families were waiting for us.

Tuesday 11th we visited Haaga-Hella University of Applied Sciences in Helsinki. We showed our Erasmus projects and we worked in groups. After we ate at the Cavern, the food was really good and later we visited the city. In the afternoon we visited the Kiasma museum, the museum of contemporary art and a guide showed us all the wonders within it. At 7:00 pm we took the bus back to Mantsala.

Wednesday 12th we went to the Lathi museum and later to bowling.

Thursday 13th we have written the Joomag at school and then we have done our Christmas traditions presentations and we have decorated the Christmas tree.

On Friday 14th we were at Ice hall to skate. Then we were to Christmas market of Saari mansion and in the end we have coke at school ...

This is our beautiful week spent in Finland, I want to thank my school for the opportunity it gave me and thank you Finland, you will remain forever in my heart.

( Me, Susanna the girl who hosted me and her brother Aleks and her sister Sofia )

**.WITH LOVE- MIRIAM**
